Celebrating
75 years of
excellence in
science writing

UKCSJ22 – Delegate Pack

NB: No printed programme will be provided at the UKCSJ22 so please bring this pack with you digitally or print the programme if you prefer

Date: September 27, 2022

Venue: The Francis Crick Institute

Address: 1 Midland Rd, London NW1 1AT

Travel Details/Map: <https://www.crick.ac.uk/about-us/visit-us>

Arrival: 09:00 – 09:30 for Registration and Coffee

Session locations:

Auditorium 1 (A1): All 'Skills and Tools' sessions (NB: 'Trust, sensemaking and science – research insights for science writers' at 12:15 will take place in the Seminar Room)

Auditorium 2 (A2): All Plenary and all 'Trends and Innovation' sessions

Seminar Room: 'Skills and tools: Trust, sensemaking and science – research insights for science writers' & 'Meet the Editors'

New session: 'Meet the Editors' will take place during the lunch break in the Seminar Room. During the morning book 5-minute slots with the editors you wish to meet

Matin Durrani, Editor-in-chief, Physics World, **Niall Firth**, Executive Editor, MIT Technology Review, **Sarah Richardson**, Group Editor, Research Professional News, **Philip Robinson**, Editor, Chemistry World, **Emma Stoye**, News Editor, Nature, **Mun Keat Looi**, International Features Editor, BMJ, **Joseph Harker**, Senior Editor, Diversity & Development, The Guardian, **Miriam Frankel**, Science Editor, The Conversation (NB: The Conversation only commissions work from academics)

Key information:

Please collect your name badge on arrival, and keep visible at all times for security

There will be a cloakroom, but it will not be staffed. However, security at the venue is always visible and present

A free Wi-Fi connection is available at the venue

Primrose Hill Books will run a book stall with key science titles from our speakers. After our final plenary Anjana Ahuja and Jeremy Farrar will be available to sign copies of their book *Spike: The virus vs the people*

Make sure you visit the exhibition stands of our supporters

All sessions will be broadcast live to our online delegates, sessions will also be recorded and made available online after the event

Schedule for UKCSJ22

| Start | Finish | Strand/Room | Session |
|-------|--------|---|--|
| 09:00 | 09:30 | Refreshment/Gallery | Registration & Coffee |
| 09:30 | 09:45 | Plenary/A2 | Welcome & Opening Remarks |
| 09:45 | 10:45 | Plenary/A2 | The challenges and lessons of reporting the pandemic |
| 10:45 | 11:15 | Refreshment/Gallery | Coffee |
| 11:15 | 12:15 | Parallel: Skills and tools/A1 | Lessons from a pandemic: how journalists navigated the weird world of work during COVID-19 |
| 11:15 | 12:15 | Parallel: Trends and innovation/A2 | COVID, scientists and science journalists |
| 12:15 | 13:15 | Parallel: Skills and tools/Seminar Room | Trust, sensemaking and science – research insights for science writers |
| 12:15 | 13:15 | Parallel: Trends and innovation/A2 | Who gets to tell the story? Diversity in science journalism |
| 13:15 | 14:15 | Refreshment/Gallery | Lunch - including 'Meet the Editors' (Seminar Room) |
| 14:15 | 15:15 | Parallel: Skills and tools/A1 | Lessons from the best on science video making |
| 14:15 | 15:15 | Parallel: Trends and innovation/A2 | Combating scientific misinformation in the social media age - a success story |
| 15:15 | 16:15 | Parallel: Skills and tools/A1 | The investigative journalism toolkit |
| 15:15 | 16:15 | Parallel: Trends and innovation/A2 | Science Writer Dragons Den |
| 16:15 | 16:45 | Refreshment/Gallery | Tea |
| 16:45 | 17:00 | Plenary/A2 | Announcement of winners: Science writer Dragons Den & closing remarks before final plenary |
| 17:00 | 18:00 | Plenary/A2 | Spike: The Virus vs. The People - the Inside Story |
| 18:00 | 19:30 | Refreshment/Gallery | Evening Reception |

Session Details

UKCSJ22 theme: Science reporting post pandemic: Lessons learned, changing working practices, next big stories

Plenary: The challenges and lessons of reporting the pandemic

09:45-10:45 Auditorium 2

Throughout the covid-19 pandemic **Sirin Kale's** coverage, primarily for The Guardian, including her seven-part series "Lost to the Virus" has consistently received great acclaim. While Kale's journalism ranges widely, her pandemic coverage has shown how science touches everything, and everything touches science. In this session, she will discuss the challenges of reporting the pandemic, the inequalities it exposed, and how it changed journalism. Plenary Chaired by **Andy Extance**, Chair of the ABSW and Freelance Science Writer.

Plenary: Spike: The Virus vs. The People - the Inside Story

17:00 - 18:00 Auditorium 2

How do we arrive at a truthful narrative of the Covid-19 pandemic, when both the science and politics is so heavily contested? **Jeremy Farrar** and **Anjana Ahuja** discuss their acclaimed bestseller *Spike*, which revealed pandemic chaos in the corridors of power. *Spike*, likened to a John le Carre thriller, was recently shortlisted for the 2022 Orwell Prize for Political Writing. Plenary Chaired by **Elisabeth Mahase**, Clinical Reporter, the BMJ.

Meet the Editors

13:15 - 14:15 Seminar Room

NB: This session is only available to those attending in person

Book a slot during the morning coffee break to pitch your ideas, get careers or other advice from our expert editors: **Matin Durrani**, Editor-in-chief, Physics World, **Niall Firth**, Executive Editor, MIT Technology Review, **Sarah Richardson**, Group Editor, Research Professional News, **Philip Robinson**, Editor, Chemistry World, **Emma Stoye**, News Editor, Nature, **Mun Keat Looi**, International Features Editor, BMJ, **Joseph Harker**, Senior Editor, Diversity & Development, The Guardian, **Miriam Frankel**, Science Editor, The Conversation (NB: The Conversation only commissions work from academics)

Parallel Sessions

Skills and Tools: Lessons from a pandemic: how journalists navigated the weird world of work during COVID-19

11:15-12:15 Auditorium 1

As we start to recover from the huge social experiment that the pandemic lockdowns plunged us into, what lessons can journalists take away? This session will see science journalists and news editors explore the sudden transition to remote working and share their experiences about what worked, what didn't, and how their working practices have changed as a result. We'll explore some of the latest research into the benefits and downsides to remote versus in-person working. And freelance and staff journalists will tell us what changed for them during the lockdowns, with tips to help us all be more efficient and collegiate as we move into the post-pandemic world. Produced and chaired by **Katharine Sanderson**, with panellists **Natasha Loder**, The Economist, **Emma Stoye**, Nature, and **Claire Ainsworth**, Freelance.

Trends and Innovation: COVID, scientists and science journalists

11:15-12:15 Auditorium 2

The pandemic has put scientists in the media glare. They have been asked to make predictions. Prescribe what people should do. Draw on data that's shifting all the time. Journalists have been involved with relaying all of this to the outside world. What has it been like for the scientists and the journalists? Produced by **Katherine Rushton**, Deputy Investigations Editor, The Telegraph and **Andy Ridgway**, Senior Lecturer in Science Communication, Programme Leader MSc in Science Communication, University of the West of England, with panellists **Linda Geddes**, Science Correspondent, The Guardian, **Kit Yates**, Senior Lecturer, Department of Mathematical Sciences, University of Bath, **Janet Eastham**, Investigations Reporter, The Telegraph and **Neil Ferguson**, Professor of Mathematical Biology, Imperial College London.

Skills and Tools: Trust, sensemaking and science – research insights for science writers

12:15-13:15 Seminar Room

The Covid-19 pandemic provided a live experiment in how people respond to information about science. What did they watch, listen to, and read at the height of the pandemic? Who did they trust? How did they make decisions about whether they would follow social distancing rules, wear a face mask, or get vaccinated? The European Commission-funded RETHINK research project set out to answer these questions and the research it conducted provides important insights for science journalists and writers. In this session, science journalist Andy Ridgway, who led the RETHINK research team at UWE Bristol, will set out some of the key findings from the research and invite you to explore how it can be applied to your writing to make your words resonate with readers. This will be an interactive session in which you are provided with an opportunity to delve into the research and what it means to you. Produced by **Andy Ridgway**, Senior Lecturer in Science Communication, Programme Leader MSc in Science Communication & RETHINK principal investigator for University of West of England, Bristol

Trends and Innovation: Who gets to tell the story? Diversity in science journalism

12:15-13:15 Auditorium 2

Who gets to tell the story of science in the media? A panel discussion to explore diversity in science media in the UK. What barriers are there to science journalism and who is taking action to address diversity in the newsroom? Produced by Angela Saini, Freelance Science Journalist and Broadcaster with panellists **Melba Newsome** freelance journalist and expert on diversifying reporting sources and subjects, **Mun Keat Looi** International Features Editor BMJ & **Joseph Harker**, Senior Editor Diversity, & Development, The Guardian. **Miriam Frankel**, Science Editor, The Conversation will chair the panel.

Skills and Tools: Lessons from the best on science video making

14:15-15:15 Auditorium 1

There are so many different ways to include video in science communication. This session looks at how, when and where you yourself can use video - with easily applicable tips and deeper insights into science filmmaking. Host **Shamini Bundell**, Senior Multimedia Editor, Nature will be talking to panellists **Emily Bates**, Digital Video Producer, New Scientist, **Melissa Hogenboom**, Managing Editor, BBC Studios, and **Rohin Francis**, creator of the YouTube channel Medlife Crisis.

Trends and Innovation: Combating scientific misinformation in the social media age - a success story

14:15-15:15 Auditorium 2

The Challenging Pseudoscience group at the Royal Institution has carried out research looking at anti-vaxxers, and used that research to see if the same tactics used by misinformation spreaders on YouTubers might be used to challenge them. **Amil Khan**, Director, Valent Projects, and **Alexandra Clark**, Founder, Tale Tell Research explain their approach and why it was successful at changing people's minds. Joined by BBC news senior reporter - health and misinformation **Rachel Schraer**, to broaden out the debate on social media and misinformation. Chaired by **Philip Ball**, Freelance Author & Writer. Produced by Angela Saini, Freelance Science Journalist and Broadcaster.

Skills and Tools: The Investigative Journalism Toolkit

15:15-16:15 Auditorium 1

How do the best in the business achieve their high profile and successful investigations? From spotting the story, to digging up the evidence, and persuading your editor to allow you the time to run with it. This session is designed to give you the tools and methods needed for a successful investigation. Produced and chaired by **Samuel Horti**, Investigative Reporter, The Bureau of Investigative Journalism, panellists include **Katherine Rushton**, Deputy Investigations Editor, The Telegraph, **Alice Ross**, reporter, Unearthed, Greenpeace, and **Jeevan Vasagar**, Climate Editor, Tortoise Media.

Trends and Innovation: Science Writer Dragon's Den

15:15-16:15 Auditorium 2

Pitch your ideas to a panel of experts, and win funding for your project. In its 75th year the Association of British Science Writers has its eyes on the future and is keen to encourage, get involved with and fund innovative and exciting new science journalism projects. How much is available? £10,000 for science writing and journalism professionals. The Science Writer Dragons are **Connie St Louis**, Freelance Journalist and Writer, **Aisling Irwin**, ABSW's honorary secretary and science and environmental journalist and author, **Kirsty Styles**, journalist, campaigner, researcher, and performer, who advocates for good information, ethical technology and diverse leadership, and **Roger Highfield**, Science Director at the Science Museum Group, author, journalist, and broadcaster.

Delegate List (online attendance is indicated in the final column)

| Name | Surname | Organization | Role | Online |
|-------------|--------------------|---|------------------------------------|---------------|
| Olagunju | Abdulahmon | | | Online |
| Chloe | Adams | STV News | Crossplatform | |
