

EXPLORE THE OLD CITY of BRISTOL

This compact, richly layered & textured city rewards a gentle stroll.

Almost every period of architecture awaits you - from Medieval to classical Victorian (including the characteristic Bristol Byzantine!)

to florid Edwardian Baroque and Art Deco and beyond ...

Savour the colours & textures (including vermiculated rustication!) of this former banking & civic hub of historic Bristol.

Savour also the intimate, semi-hidden spaces, glimpsed through archways.

The whole place shows what an intriguing high density, low rise, walkable city can be

Enjoy (as they say)
