Are you a dedicated clinician passionate about making a tangible difference in the lives of the families, children and young people we care for? Do you have a research question or idea but don't know where to start? Or a research proposal you wish to refine?

Our research clinic provides a unique platform for allied health professionals, nurses, and doctors like you to engage in impactful research within this vital space. At our clinic, we offer:

- A collaborative environment for you to connect with like-minded professionals and academic experts to exchange ideas, insights, and best practices.
- Guidance and resources to develop and refine your research projects, ensuring they meet the highest standards of excellence.
- Opportunities for advancement: Present your research proposal, gain valuable feedback, and contribute to shaping the future of community child health.
