Conference overview:

This is a two day medical conference on issues around paediatric neuro-development and neurology. The programme focuses on the topics which are relevant to day to day clinical practice and delivered by high profile national and international speakers. The aim of the conference is to help delegates consolidating their knowledge and skills about a range of paediatrics, neurology, neuro-developmental and psychiatric conditions that are regularly seen in paediatric clinical practice.

Who should attend?

Consultants, specialist trainees, advanced nurse practitioners and various other therapists and senior nursing staff

This year's topics include:

Cerebral palsy and different aspects of management, epilepsies and its management, movement disorders, autism, sleep disorders, developmental disorders, headaches management plus a range of other related neurology and neurodevelopmental issues.
