

INVITATION:

Screening of OCEAN with David Attenborough & BMS President's Reception

Please join us for a special screening of OCEAN by the legendary broadcaster David Attenborough and filmmaker which will take you on a breathtaking journey of ocean discovery and wonder. Made to mark his 99th birthday this documentary shows there is nowhere more vital for our survival, more full of life or surprise than the ocean.

In his words "After living nearly a hundred years on this planet I now understand that the most important place on Earth is not on land but at sea". Attenborough's greatest message of optimism is the ocean can recover to a glory beyond anything anyone alive has ever seen.
