## The biggest coffee morning in Majorca

By Laura Stadler and Wendy Peters

*Portals.* —When MacMillian Cancer Care Fun called for help to raise funds by creating the Biggest Coffee Morning in The World, as ever Majorca threw itself into the project with gusto. Throughout the island yesterday cakes were baked and coffee mornings held to gather money for such a worthy cause.

One of the largest was held at Mood Beach where over 250 gathered at the idyllic beachside setting to catch up with a coffee after the summer and enjoy a variety of delicious cakes. All the while being serenaded by the lovely Izzy Newman.

Organised by the 41 Club, which Chairman Graham Whitmore explained was a

spin-off by former members of the Round Tables Club who had exceeded the age of 40.

By the end of the morning an impressive 2,000 euros was expected to have been raised with many staying for the set menu lunch.

British bastion Wellies also held a coffee morning which raised 500 euros. Organised by volunteers from the popular Cala Nova Cancer Care Charity shop around a hundred people munched through the fabulous cakes on offer listening to the sounds of Liam Live.

All the organisers were delighted with the help from volunteers and generous response from the islanders who made the events so successful.
