Christopher Bradley

INFORMATION MANAGEMENT STRATEGIST

Training, Mentoring, and Executive Workshops

A DAMAI Registered Education Provider (REP)

We offer training courses for practitioners and executives. Custom-built, training & awareness seminars can also be delivered.

Building a business focused Data Strategy - 3-day course showing the components of a business focused data strategy, how to gain input and buy-in, how to develop realistic implementation roadmaps and transition plans, and what it really means to be "data centric".

Data Management Fundamentals – 5-day intermediate course covering all of the major disciplines of Information Management as defined in the DAMA Body of Knowledge (DMBoK) & the changes in DMBoK 2.0. Core aspects & methods of the Information disciplines are explored.

Introduction to Information Management – 1-day high level overview course, introducing the major disciplines of Information Management, why it is critical for business today, and the core subjects within the Information Management topic.

Data Modelling Fundamentals – 3-day intermediate course introducing students to data modelling, its purpose, the different types of models and how to construct and read a data model. & how data models should be used for Business improvement & understanding.

Advanced Data Modeling (including Data Modelling for Big Data) – 3-day advanced course for practitioners with existing data modelling experience to understand the human centric aspects and techniques of data modelling to enable them to build quality models that meet business needs. This also covers major data model patterns & common problem solving. The course also shows the applicability of Data Modelling in Big Data, NoSQL, and other non-relational environments.

IM Fundamentals & Practitioner Courses – A series of 1-day (foundation) and 2–3-day (practitioner) classes to provide practitioners a solid background in a specific Information Management topics. The practitioner workshops explore further detail on the implementation aspects of the Information Management discipline & also cover the CDMP specialist exam syllabus, providing preparation for students seeking to take the specialist CDMP exam.

- Data Modelling Foundation (1 day only)
- Data Governance & Stewardship
- Master & Reference Data Management
- Data Quality Management
- Data Warehouse & Business Intelligence
- Data Integration & Interoperability
- Metadata Management

Executive Workshops – ½ day and 1-day executive workshop(s) designed to give non-technical managers a basic understanding of a various Information Management topics and their importance to the organisation.

Professional Certification – 3-day and 5-day workshop "exam cram" designed to help attendees prepare for sitting professional certifications including DAMA CDMP examinations.

Integrated Business Process, Data & Requirements Definition – 5-day intensive class to show students an integrated requirements discovery and definition approach covering business process, different types of requirements modelling, and the critical role of the conceptual data model.

Value of the CDMP?

Individual Benefits:

- Professional Development Milestones
- Continuous Professional Growth
- Internationally Recognized Measurement of Accomplishment
- Greater credibility and recognition in the marketplace
- May be a requirement in some areas

Organizational Benefits:

- A benchmark for assessing Data Management practices
- Increased trust in your Data Management team
- Employee development
- Demonstration of commitment to quality standards
- Raise awareness of the importance of Data Management disciplines to the organization

CDMP Associate

- 1 exam – **Data Management Fundamentals**
- Based upon DMBok2 (see breakdown for %)
- Associate pass mark 60%
- ***Immediate*** award of CDMP Associate for passing DM Fundamentals with 60%+ pass

Examination

- 100 questions
- Multiple choice .. Only one answer per question
- 90 minutes (+20 mins where English is 2nd Language (ESL))
- 60% to pass

CDMP Practitioner

3 exams

- **Data Management Fundamentals** (70% required to pass)
- **2 Specialist exams** (70% required to pass)

Specialist Exams (each)

- 100 questions
- Multiple choice .. Only one answer per question
- 90 minutes (+20 mins where English is 2nd Language)
- 70% to pass

Specialist Exams

- Data Governance
- Data Modelling
- Data Quality
- Metadata
- Data Integration
- DW / BI
- Master & Reference Data
- *Data Architecture Management (on hold for DMBOK 3)*

CDMP Master

3 exams

- Minimum 10 years Data Management experience (Evidence of experience reviewed by CDMP Fellows)
- **Data Management Fundamentals** (80% required to pass)
- **2 Specialist exams** (80% required to pass)

Specialist Exams (each)

- 100 questions
- Multiple choice .. Only one answer per question
- 90 minutes (+20 mins where English is 2nd Language)
- 80% to pass

Specialist Exams

- Data Governance
- Data Modelling
- Data Quality
- Metadata
- Data Integration
- DW / BI
- Master & Reference Data
- *Data Architecture Management (on hold for DMBOK 3)*

CDMP Portal: https://cdmp.info

The screenshot shows the CDMP Portal website. At the top, there is a navigation bar with the DAMA International logo and the text "The Global Data Management Community". To the right of the logo are buttons for "NEED HELP?" and "LOGIN TO D2L". Below the navigation bar is a horizontal menu with links for "HOME", "ABOUT", "EXAMS", "EVENTS", and "FAQS/SUPPORT".

The main content area features a hero banner with a background image of a laptop displaying data charts, a smartphone, and a pen. The text in the banner reads: "Certified Data Management Professionals" and "All organizations need certainty that the people who are managing this important strategic asset are qualified."

Below the banner, a text line states: "Certified Data Management Professional (CDMP)® is a globally recognized Data Management Certification program run by DAMA International."

A table displays the number of certified professionals for each level:

Associate	Practitioner	Master	Fellow
19,243	1,441	418	3

* as of April 2026

At the bottom, there are three quick links with icons: "ABOUT CERTIFICATION" (Find out about certification levels), "ABOUT EXAMS" (Find out about costs, exam types), and "FREQUENTLY ASKED QUESTIONS" (Find answers to many of your).

CDMP Levels

		Associate	Practitioner	Master	Fellow
DAMA Membership		Central	Central	Central	Central
Practical Experience	Guideline²	6 months > 5 years	2 years – 10 years	10 years <i>minimum</i> ²	Over 25 years ²
	Maximum	N/A ¹	N/A ¹	N/A ¹	N/A ¹
Exams		1 DM Fundamentals	3 DM Fundamentals + 2 specialist	3 DM Fundamentals + 2 specialist	Globally recognised & respected thought leadership. Well published. Significant contribution to Data Management Profession. CDMP Master. Contribution to CDMP & DMBOK. By nomination.
Allowable substitutions³		No	No	No	
Pass Mark		60%	70%	80%	
Route		Register & take exam	Register & take exams	Register & take exams. Evidence experience (reviewed by CDMP Fellows)	

1. Individuals are welcome to remain at any level without pressure to go upward. You can decide what level you want to be and if you wish to proceed further.
2. Industry experience is a *guideline* for taking the certification. For Master, a minimum level of experience is required.
3. Substitute exams ceased from 1st August 2020.

CDMP Exam Prices

Item	Member
All CDMP exams (taken at conferences, training events, chapters etc..)	\$300
Online proctoring fee	\$11
CDMP Renewal	\$100
Exam re-take	\$200

*All exams are taken online only (classroom proctored or online proctor)
Online or chapter-led proctoring requires full payment up front

Every question / every distractor referenced

Example

Stem	Key	Distractor 1	Distractor 2	Distractor 3	Distractor 4	DMBoK Ref	Difficulty Level	Rationale (Key)	Rationale Distractor 1	Rationale Distractor 2	Rationale Distractor 3	Rationale Distractor 4
Reference Data ...	Usually has fewer attributes than Master Data	Is also known as External data	Usually has more attributes than Master Data	Is more difficult to Govern than Master Data	Is free	1.3	Practitioner	Reference data (for example the list of customer types) usually has less attributes than master data (for example customer). Reference data is frequently Code / Code Value / Previous Value / Description. See Reference and Master Data 1.3.1.	While much of reference data may be externally sourced and maintained outside the organisation, reference data within the organisation (for example internal customer types) is not external. See Reference and Master Data 1.3.2.	Reference data (for example the list of customer types) usually has less attributes than master data (for example customer). Customers, Products, Wells, Vendors, Employees etc often have high 10's of attributes in a Master Environment. See Reference and Master Data 1.3.1.	Reference data is usually easier to govern as it is slow changing and often externally defined. Also, fewer organisation units have contentious views about Reference data, there's a general acceptance of the need to manage it. See Reference and Master Data 2.2.5.	"Nothing in life is free." Reference data may not change very often, but its impact is often enterprise wide (even beyond the enterprise to external stakeholders). Changes may not happen often, but they can be very expensive. See Reference and Master Data 2.2.1.

Question 3

Which of these are NOT true of Data Governance??

- DG is a continuous process of data improvement
- A DG initiative should always be led by the IT department
- IT is a key stakeholder in DG
- There are different organization models for DG
- DG is the exercise of authority and control over the management of data assets

Question 4

What are the primary responsibilities of a data steward?

- Identifying data problems & issues
- The manager responsible for writing policies and standards that define the data management program
- Analyzing data quality
- A business role appointed to take responsibility for the quality and use of their organization's data
- The data analyst who is the subject matter expert (SME) on a set of reference data.

Data Management Fundamentals

STANDARD EXAM

ESL VERSION

PRACTICE EXAM ONLY

The practice exam is free with the exam purchase.

Select version (e.g. English as a Second Language)

After purchase, follow the emailed instructions to register an account on the examination platform

This document will assist you to enrol and take your Data Management Fundamentals exam

This enrolment is for: **Data Management Fundamentals Standard exam**

Before you enrol please read the following guidance and rules:

The email you use to enrol links all your badges and payments. You should, if possible, use the same email to enrol and pay.

We recommend using a personal email, rather than a work email, so you don't lose access to your account in future.

It is against the Canvas Terms of Service for one person to have two or more accounts. If you make a mistake when you enrol you must NOT try to re-enrol as this could create a second account. Please email support@cdmp.info for assistance.

This information is provided for you only. This document and the links contained must not be shared with anyone.

Sharing this information can result in you losing your exam results/s, your certification or access to the platform.

If you are found to be using these enrolment instructions without authorisation, your canvas account and exam result/s will be deleted.

In this document you will find

How to enrol in your exam

Page 2

How to prepare for your exam

Page 3

What to do after your exam

Page 4

Data Management Fundamentals (online)

1 Create a canvas account and enrol in the exam

Click the [enrolment link](#) to go to Canvas Catalog to enrol.

Once you have enrolled, you will receive 2 emails:

- 1 – to confirm your enrolment
- 2 – to confirm your Canvas Account

Please follow the instructions in both confirmation emails to complete the enrolment process.

You can take the Practice exam as many times as you wish

Once you have completed the enrolment process you can access Canvas by logging in here: cdmp.instructure.com

2 Log into canvas and try the Practice exam

[Try the practice exam](#)

The Practice exam is optional but recommended.

It is a short exam that draws 40 random questions from a bank of 200 practice questions.

You can take the Practice exam as many times as you wish

3 Download Honorlock and take the exam

[Take the exam](#)

Read and accept the exam conditions.

You will be prompted to install the *Honorlock Chrome Extension*.

Once you are ready click:

[Take the Quiz](#)

If you need assistance during your exam click the chat button for support from Honorlock

The Data Management Fundamentals exam is the foundation exam for all CDMP levels.

If you pass this exam with a 60% or more pass mark, you automatically receive an Associate certification. If you achieve a pass mark of 70% it will also count towards Practitioner certification. If you achieve a pass mark of 80% it will also count towards Master certification.

Inside Canvas

Access your exam enrolments via the dashboard

Update your notification preferences. We recommend turning off all notifications. You can access these settings via the Account icon

Access both the practice exam and the main exam from your course tile

Page 2

Prepare your open book materials

The open book policy allows only one 'book'. One book means, one of the following

- DMBok2 in hardcopy, or
- DMBok2 in digital form, or
- Hard copy notes, or
- A digital version of notes

If you decide to use a digital version of the DMBok or your notes, they must be on a separate device, such as a tablet or a separate laptop. You may not use a Mobile phone for digital versions.

Prepare your exam space

You will need a quiet desk area, with your face well lit. If windows are behind you, please close the curtains to reduce back light.

- Your desk should be clear of all items except your open book materials
- Do not have your mobile phone on the desk or in the room
- Close any doors in the area
- Cover or remove any writing on walls, such as white boards or pictures with text

Read and watch

- [Exam conditions](#) – you will be asked to acknowledge these prior to taking the exam
- [Academic Integrity policy](#)
- Browse the [CDMP FAQs](#)
- Watch the [room scan example video](#) – not completing an adequate room scan can result in the exam attempt being deemed invalid

Checklist

- Photo ID
- Stable wifi / internet connection
- Latest version Chrome browser
- Webcam
- Open book materials
- Prepare exam space
- Mirror to show your desk if you are unable to move your webcam

Page 3

I have completed the exam

After the exam click the "Finished the exam Click here" button from the home page of your exam, for important post exam information.

Take a copy of your records

At the end of each calendar month, exam results are sent to DAMA-1 for loading to your membership portal. Once this has occurred you will lose access to your exam.

Please take a copy of your exam results, for your records.

Badges and Certificates

If you have passed the exam (a score of 60% or more) you will receive an Associate Badge and Certificate. Badges can take up to 3 business days to be issued, Certificates are issued up to 10 days after badges.

Your badge - You will receive a notification email from Badgr once your Badge has been issued. Please follow the link in the email to setup your Badgr backpack and share your badges.

Your Certificate - This will be sent to you at the email you used to create your Canvas account.

Need a Retake?

You can do a retake if you would like to try for a higher pass mark.

There is no minimum time frame between your first attempt and your re-take.

A retake costs USD\$200 + proctor fee.

[Purchase retake](#)

If you passed with over 70% you are eligible to continue your CDMP journey to Practitioner or Master.

Practitioner requirements
70% pass in Data Management Fundamentals exam and 70% pass in 2 specialist exams

Master requirements*
80% pass in Data Management Fundamentals exam and 80% pass in 2 specialist exams

*Minimum 12 years experience required. As part of the process you will need to submit a CV for review.

You can book a specialist exam from [here](#)

Help

All exams are open book exams. The open book policy allows only one 'book'.

One book means, one of the following

- DMBok2 in hardcopy, or
- DMBok2 in digital form, or
- Hard copy notes, or
- A digital version of notes

If you decide to use a digital version of the DMBok or your notes, they must be on a separate device, such as a tablet or a separate laptop. You cannot use a mobile phone.

The device cannot be connected to the computer you are using for the exam.

You cannot use a second monitor on the same computer.

You may **not** use a Mobile phone for digital versions.

Exam browser and system conditions

- Close all tabs in your browser prior to commencing your exam.
- You are only permitted to have the Canvas exam page open.
- All applications except Canvas should be closed during your exam.
- You are permitted to use browser translation if required.
- If you require a dictionary translation website, you will need to submit it to CDMP support for approval **prior** to commencing your exam.
- If the Honorlock proctor attempts to pause your exam to contact you, you must not restart the exam until given permission by the proctor.
- You must respond to all requests by the Honorlock proctor.

What happens if I breach the conditions

What happens if you breach the **Exam conditions** as listed above

1. Your exam mark **will** be removed.
2. Any badges issued will be revoked.
3. You will be issued with 'Breach of exam conditions' notice.

What happens if you breach the **Verification of identity** conditions as listed above

1. Your account **will** be suspended.
2. Any badges issued will be revoked.
3. You will be issued with a suspension notice.

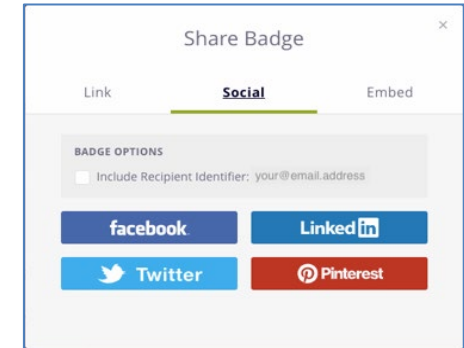

By clicking on 'Take the exam', you acknowledge and accept the above exam conditions

Take the exam

CDMP Badges

- Exam platform awards badges for passing CDMP certifications.
- You can put these badges on your CV, LinkedIn, Twitter, Facebook or even Pinterest.
- Badges are not just an image, Badges carry metadata that can be verified.
- EG, you can send your badge to a prospective employer who can verify that your CDMP certification is authentic and valid.
- Badges are part the global movement called the “OpenBadges” specification.
- Started in 2010 by Mozilla, it has expanded to include millions of Open Badges awarded to hundreds of thousands of recipients & supported by certification players such as The Open Group, PMI, Microsoft and IBM.
- Part of the open badges specification & community are public verification authorities that you can use to independently verify your badges are authentic as required.
- In addition to CDMP badges, accumulate badges for certifications including TOGAF, Prince II, MCSE, PMP & PMI.

DMBoK₂ and CDMP® Preparation

Renewal

To maintain the validity of your Certified Data Management Professional® (CDMP®) certification, DAMA International® requires all certification holders to participate in an annual renewal process. Initially, the CDMP® certification is valid for three years. To keep your certification active beyond this period, you must:

- 1. Annual Maintenance Fee:** [Pay the CDMP® maintenance fee](#) each year.
- 2. Data Management Activity Attestation:** Submit the [Data Management Activity Attestation Form](#) annually, confirming your ongoing involvement in data management activities.
- 3. Code of Ethics:** [Sign and adhere to the current version of the DAMA International® Code of Ethics](#), reflecting your commitment to professionalism and ethical standards in the field.
