

When your picture has been taken you can take the hospital gown off and can get dressed and go home.

Your Doctor will tell you the results of your x-ray.

Having a Chest X-Ray

When you arrive at the department for your x-ray. You will need to give your letter or card to the person on the reception desk.

You will need to sit in the waiting area until it is your turn to go in for an x-ray.

Developed by Julie Day (Acute Hospital Liaison Nurse) & Sally Humpage (Support Worker). Telephone 01926 317700.

With Thanks to Clara Edmunds and Ultrasound department at Warwick Hospital.
Review: February 2008

When it is your turn you will need to take off your shirt or top and put on a hospital gown.

The radiographer will put the x-ray machine in the right position for taking your x-ray. The radiographer will then go behind a screen to take the picture. Your carer can stay with you.

The Radiographer will ask you to stand in front of the x-ray machine which will take a photograph of your chest. The Radiographer will make sure you stand in the right place.

You will need to keep very still whilst you have your x-ray photograph taken because if you move the picture might not come out properly.
