Presenting your abstract

What types of presentations are available?

At least one of the authors must be registered for the full Congress to present the abstract.

Can my colleague present my work instead if I am successful?

We recommend that the lead author submitting the abstract is the main author and presenter at Congress. However, any of the other authors named on the abstract can present if the main author is unable to attend. If your colleague is not a named author on the original submission, they cannot present.

In order for your work to be presented at the Congress at least one of the authors must have either a full Congress pass, or a day-pass for the date of your presentation.
