

**WSWSHG presents:**

# **A HIGHER HOMEOPATHY IN CHRONIC DISEASES**

**A talk and discussion with  
DR ERNST TREBIN**

**Tuesday January 17th at 8pm (UK time) on Zoom**

**Registered Health Professionals and Students Welcome**

Dr Trebin has studied the theory of miasms intensively. Finding that plant remedies cannot cure migraines, rheumatism or cancer, he pursued the attitude of the old homeopathy masters. Namely, that mineral remedies are of primary importance in chronic cases, that the miasms are the backbone of all chronic ailments, and that every chronic illness is caused by genetics on the one hand and by biographical imprint on the other.

Current polychrest homeopathy, he maintains, does not fully exploit the potential of our method, and that the way of dealing with chronic diseases has been naïve so far, little more than a chronic acute therapy which must fail sooner or later.
