

Levels of Health according to Classical Homeopathic Theory
by Professor George Vithoulkas

<p>Group A Levels 1-3</p>	<p>Homeopathic potency up to 50M</p>	<ul style="list-style-type: none"> • All diseases in Group A are mainly functional disturbances • The diseases in this Group are curable by homeopathy; clear symptoms lead clearly to the correct homeopathic remedy • The infrequent infections that appear are mostly of typical bacterial types • Childhood diseases • In the upper Levels, therapeutic homeopathic aggravations may not appear • In the lower Levels, mild therapeutic homeopathic aggravations may appear • In the upper Levels there is strong health, and usually no repetition of the homeopathic remedy is needed, neither is a follow-up remedy needed • In the lower Levels, 2-3 homeopathic remedies in the appropriate sequence will be needed • In the lower Levels, acute diseases appear more frequently
<p>Group B Levels 4-6</p>	<p>Homeopathic potency 200C – 10M</p>	<ul style="list-style-type: none"> • As we go down the Levels, we see the appearance of more frequent and more severe acute conditions (e.g. pneumonia) • There are bacterial infections that are more resistant to antibiotics • There are more severe aggravations • More homeopathic remedies, one after another, will be needed • In the lower Levels, acute diseases follow one another. After using strong chemical medicines, the level of health descends and chronic conditions appear • In the lower Levels, therapeutic homeopathic aggravations can last a long time
<p>Group C Levels 7-9</p>	<p>Homeopathic potency 30C – 200C</p>	<ul style="list-style-type: none"> • We see the appearance of chronic degenerative diseases (e.g. Crohn's disease, ulcerative colitis) in this Group • In the upper Levels, there are fewer acute diseases which are also quite mild in their occurrence, and these mild acute diseases dissipate easily • In the lower Levels, no acute conditions appear • In the upper Levels, there are very severe initial therapeutic homeopathic aggravations • In the upper Levels, homeopathic therapeutic aggravations can be dangerous, and chemical intervention may be necessary • Generally, 4-5 homeopathic remedies, in the appropriate order, will be needed. • In the lower Levels, an aggravation without amelioration may mean that the remedy was wrong

INTERNATIONAL ACADEMY OF
CLASSICAL HOMEOPATHY

Group D Levels 10- 12	Homeopathic potency 6C - 30C repeated	<ul style="list-style-type: none">• This Group has the severest chronic diseases with deep pathology• We see no acute infections at all in this Group• There are only superficial ameliorations with change of symptoms and frequent change of remedy. If a homeopathic aggravation appears, then the remedy was possibly wrong• In the lowest Levels, cases are incurable, and only palliation is possible
