

**WSWSHG presents:**

# **WILD FLOWER REMEDIES IN HOMEOPATHIC PRACTICE**

**A talk and discussion with  
DR SHAILENDRA VAISHAMPAYAN**

**Tuesday February 17th at 7.30pm (UK time) on Zoom  
Registered Health Professionals and Students Welcome**

Wild flowers survive quietly - unnoticed, resilient, uncared for, and uncultivated, expressing the untouched vitality of nature. Yet they remain deeply beneficial to humanity.

Homeopathic remedies derived from wild flowers often share a similar fate, overlooked and under-observed, overshadowed by the dominance of so-called polycryst remedies.

In this talk Dr V shows how their thoughtful and attentive use, especially in cases where familiar remedies fail, can open new avenues in clinical practice.
