## TRACKS

<b>INFECTIOUS DISEASES</b>	<b>REPRODUCTIVE AND CHILD HEALTH</b>	<b>NON-COMMUNICABLE DISEASES</b>	<b>HEALTH SYSTEMS AND RESOURCES</b>	<b>GLOBAL INTERACTION AND HEALTH</b>	<b>SCANDINAVIAN-BALTIC SOCIETY FOR PARASITOLOGY MEETING</b>	<b>PLENARY SESSIONS</b>
----------------------------	--------------------------------------	----------------------------------	-------------------------------------	--------------------------------------	---	-------------------------

**Monday September 09, 2013**

16:00-19:00	Registration
-------------	--------------

Tuesday September 10, 2013							
Time/Room (Capacity)	Congress Hall (2500)	Carstensen (400)	Lumbye (195)	Pjerrot (180)	Columbine (155)	Harlekin (155)	Dansetten (55)
08:00-09:00	Registration /Coffee						
09:00-09:30	Opening						
09:35-11:00	The Health-related Millennium Development Goals–where are we and why? Panel discussion: Gorik Ooms (Belgium) & Walter Seidel (EU) and more tbc						Molecular parasitology and evolution
11:00-11:15	Coffee break/poster display						
11:15-12:45	The double burden of communicable and non-communicable diseases	Acute malnutrition: short and long-term consequences	Which countries will achieve elimination of schistosomiasis and adequate coverage of soil transmitted helminths by 2020?	Control of neglected zoonoses using a One Health approach	International support for strengthening the capacity of universities in the south to do research and research based education	Worms as a therapy for human immune mediated diseases	<i>Toxoplasma gondii</i> and schizophrenia (tbc)
12:45-13:30	Lunch break/poster display						
13:30-15:00	MDG agenda post 2015: drugs, cure or curse?	The challenges of neurological diseases in resource-poor settings	Mass drug administration and the control of neglected tropical diseases: learning from success, learning from failure	Snake bite envenomation: progress and challenges	The value of training in tropical medicine and international health: formal recognition of a comprehensive training programme in the Netherlands	<i>Echinococcus multilocularis</i> – dealing with an emerging zoonosis	Fishborne parastic zoonoses
15:00-15:15	Coffee break/poster display						
15:15-16:45	Counterfeited drugs in developing countries	Implementing research into policy and practice: roles of media, researchers, decision-makers and civil society	Immunological memory and malaria	Food safety	North-South research partnerships	<i>Echinococcus multilocularis</i> – dealing with an emerging zoonosis	
16:45-18:15	Molecular pathogenesis of severe malaria	Architecture and health			North-South research partnerships	<i>Cryptosporidium</i> a public health concern – recent advances in our understanding of the epidemiology	

Wednesday September 11, 2013							
Time/Room (Capacity)	Congress Hall (2500)	Carstensen (400)	Lumbye (195)	Pjerrot (180)	Columbine (155)	Harlekin (155)	Dansetten (55)
08:00-08:45		Meet the expert	Meet the expert	Meet the expert	Meet the expert	Meet the expert	
09:00-10:30	Child Health (MDG4) and Maternal Health (MDG5). Why does MDG4 work out while MDG5 does not? Key note speakers: James Tumwine (Uganda) & Jill Sheffield (USA)						Parasite ecology (tbc)
10:30-10:45	Coffee break/poster display						
10:45-12:15	The links between maternal and child health and non-communicable diseases – the threat and opportunity for global health	HIV - treatment adherence in resource constrained settings	Global health education beyond 2015: what kind of professionals do we need to face future challenges?	Quality medicine use in children	Surveillance and control of <i>Salmonella</i> infections	Evolution, parasitic diseases and immunity	
12:15-13:15	Lunch break/poster display						
13:15-14:45	Obstetric fistula; the incurable cases-what is the solution?	Complementary feeding: prevention of malnutrition	Experimental malaria	Unexpected observations in global health: A call to report and react!	Educating health workers to face future challenges	Geospatial health: Mapping and modelling parasitic infections	
14:45-15:00	Coffee break/poster display						
15:00-16:30	Putting the <i>WHO Code of practice on international recruitment of health personnel</i> into policy and practice	Infectious disease and public health in Greenland	Antibiotic resistance, quality of antibiotic drugs and antibiotic misuse: A curse for health in Africa?	Unexpected observations in global health: A call to report and react!	mHealth for maternal health	Meet the three EU-funded dengue consortia: IDAMS – DENFREE - DengueTools	Role of natural IgM binding in parasitic diseases
16:30-18:00	Global HIV issues in pursuit of universal access and MDG 6.	Analytical methods to detect the quality of antimalarial drugs collected from malaria endemic	Diagnosis of helminth infections	Pneumonia	Challenges and solutions for access to medicine in high-, middle- and low-income countries	Meet the three EU-funded dengue consortia: IDAMS – DENFREE - DengueTools	SBSP general meeting

Thursday September 12, 2013						
Time/Room (Capacity)	Congress Hall (2500)	Carstensen (400)	Lumbye (195)	Pjerrot (180)	Columbine (155)	Harlekin (155)
08:00-08:45		Meet the Expert: Erik Svensson (TB diagnostics)	Meet the expert	Meet the expert	Meet the expert	Meet the expert
09:00-10:30	What lies beyond MDG 2015: How can we best ensure that research results are implemented? Key note speakers: Peter Aaby (DK) & David Schellenberg (UK)					
10:30-10:45	Coffee break/poster display					
10:45-12:15	Palliative care in low income countries	Nutrition and HIV interactions	Malaria vaccines	Migration and neglected parasitic diseases	Health systems in conflicts and natural disasters	Progress towards alternative anthelmintic drugs
12:15-13:15	Lunch break/poster display					
13:15-14:45	The global burden of diabetes – relevance in the developing world	Tuberculosis, lack of resources or lack of attention?	Mental health interventions in general health care and HIV care settings in low and middle income countries	Migration and neglected parasitic diseases	Unfinished business for health MDGs post-2015: How to adapt strategies of aid and health service delivery in countries lagging behind.	Hepatitis
14:45-15:00	Coffee break/poster display					
15:00-16:30	Iron deficiency and malaria	Universal health coverage: yes, but coverage of what? The need for people-centred care	Travel medicine	Health systems financing: Paying for performance and improving financial access	Genital schistosomiasis	Dengue
16:30-18:00	Malaria in pregnancy	HIV – treatment adherence in resource constrained settings	Pitfalls in developing tools for the management of African visceral leishmaniasis	Global health research and education: what is it, and how should it be taught?	Genital schistosomiasis	Workshop: Formal aspects of writing biomedical research papers

<b>Friday September 13, 2013</b>			
Time/Room (Capacity)	<i>Congress Hall</i> (2500)	<i>Columbine</i> (155)	<i>Harlekin</i> (155)
08:00-09:30	Non-malarial fevers	Tuberculosis vaccines	Sanitation in the post-2015 landscape
09:35-11:00	What lies beyond MDG 2015: What are the future priorities in health interventions and research? Key note speakers: Anne Mills (UK) & Ib Bygbjerg (DK)		
11:00-11:15	Coffee break/poster display		
11:15-12:45	Antimalarial drugs, drug resistance and drug policy change	Research for practical and advocacy purposes in occupational and environmental health interventions at a global level	Fostering resilience in health care systems: Current scientific advances and policy debates
12:45-13:45	Lunch break/poster display		
13:45-15:00	Closing
