PHD RESEARCH SCHOOL

SYSTEMS PERSPECTIVES ON SUSTAINABILITY AND JUSTICE

BERGEN, 10–20 JUNE 2025

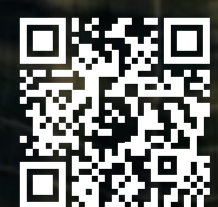

With just five years left to reach the Sustainable Development Goals, we need to ask ourselves—can we not do better?

With an urgent need for disruptive and radical change,

we will focus on creative problem-solving and look at alternative ways of thinking. Our five parallel PhD courses look at democratic practices, health financing, higher education, accounting for

sustainability, and AI.

You will also get an interdisciplinary workshop on systems thinking, keynotes and social events to help you develop skills to create actionable knowledge.
