

LCER Diversity Statement

The Labour Campaign for Electoral Reform celebrates diversity as a core strength that enriches our collective experience. We are committed to fostering an inclusive environment where individuals of all backgrounds, identities, and perspectives feel valued and respected. By advocating for proportional representation, LCER aims to contribute to the creation of a political landscape where diversity is not only acknowledged but actively cultivated. We believe that only in a proportional system will diversity be truly represented, not only in Parliament but in wider political spaces.

We are committed to making every voice count.

In order to fulfil our commitment to increasing diversity LCER will:

- Create and maintain a safe and inclusive environment for all people regardless of age, gender identity, sexuality, disability, race, religion or background;
- Strive to increase the diversity amongst the wider LCER membership and Executive;
- Advocate for a PR-based electoral system;
- Support wider democratic reforms which encourage openness, transparency and accessibility in politics.
