

MARFAN SYNDROME

See the Signs

Save a Life

There are 18,000 people in the United Kingdom with MARFAN SYNDROME

Around half remain undiagnosed

Marfan syndrome affects:

- Eyes (short-sightedness, dislocated ocular lens, retinal detachment)
- Skeleton (scoliosis, loose joints, chest deformity)
- Heart (enlarged aorta)

The Marfan Trust is the only charity in the UK dedicated to improving and saving the lives of people with the syndrome.
