

# 5 REASONS TO SUPPORT US

WE ARE MINDFUL OF THE POPULATION'S CURRENT SMALL SIZE, MIX & EVEN SMALLER MARKET, SITUATIONS ON THE GROUND AND NEED FOR A HOLISTIC APPROACH .

SO, WE ARE FOCUSED ON REGENERATION OF MONTSERRAT IN THE FOLLOWING WAYS:

## Bolstering The Economy

- **Broadening the economy** by supporting new & innovative ventures & initiatives, as well as those existing ones wishing to expand & spin-offs as opposed to competing businesses.
- **Helping to improve market size** by supporting Diaspora members wishing to return to work or set up a business; development of export potential by requiring projects to meet standards of health & safety.
- **Working to ensure local circulation of funds** by imposing conditions to avoid competing with existing businesses; ensure each project plays a supply & demand role, such as using or purchasing local raw materials from local producers meeting the standards.
- **Starting with small pilot businesses with big potential**, to ensure that funding benefits reasonable numbers of people; projects can prove they can operate under, and deliver, required standards & be sustainable; and operational risks & market response to products & services are tested.

## Supporting Employment Opportunities

**Working on step-by-step revitalising of employment & the population by:**

- Requiring all projects, where appropriate, to take on at least one person as new employee or self-employed;
- Supporting each project's success and the tools for growth towards entering the export market, thus sewing the seeds for expansion or further spin-off business or job opportunities for others; and
- Supporting future spin-offs and expansions in qualifying for further funding by us, if indeed other sources of funding do not emerge.

*We believe in the power of a people united in supporting itself and in the power of evolving opportunity, one bearing opportunity for another, and leading to opportunity of one kind or another for all.*

*In supporting us, you revitalise your homeland starting with the most vulnerable and committed.*

## Sustainable Environment

- **Keeping abreast of the work being carried out by others** as part of protecting the patrimony, wealth and well-being of Montserrat.
- **Supporting those types of projects & initiatives too.**

## Entertainment

- **We appreciate the significant value of preserving & developing the culture & beauty of Montserrat** and of increasing recreational & entertainment activities & initiatives.
- **We plan not only to support projects in this area, but also to get directly involved in supplementing them as necessary.**

## Partnerships & Enterprise

*Starting with innovative businesses & initiatives with trusted standards, We'll be:*

**Encouraging, nurturing, creating & supporting partnerships:**

- between projects;
- between government, private sector & voluntary/ charitable sectors;
- between us, other appropriate businesses & initiatives, & the Montserrat community; and
- between Montserrat local community and those across the Diaspora.

**Supporting projects & people thinking of returning to Montserrat** in negotiating government incentives and support.

*As part of our partnership with you, we are:*

- **Operating a well-regulated, open, honest, accountable & inclusive organisation.**
- **Bringing onboard Facilitators, Advisers, Mentors & Sponsors.**

We have significant experience of Government in Montserrat and of advising & supporting at all levels large UK Government projects ranging from £50 million to £10 billion. That is at project management, senior management decision-making scrutiny & audit, and ministerial levels. This together with our dedication & commitment to our homeland, heritage, history and present & future generations, makes this enterprise well within our capability and makes us uniquely well-placed to make it succeed.
