

Supporting information for placement end for placing local authority

This form gives foster carers an opportunity to help the placing local authority with their matching process. It is important that when placements break down the referral for a new placement includes what has been learned about the child to enable the placing local authority to find the right future home for a child. This might include being the only child in placement, being with a couple, being where there are no pets.

Name of child
Initials of foster carer/s
IFA
Placing local authority
Length of time in placement
Number of placements child has had (if known)

Foster carer/s experience (e.g. length or time/number of placements)

Foster carer to complete:

Were there any matching issues at the point of placement?
What contributed to the placement being unable to continue?
What were the three most difficult challenges associated with this placement?
What were the three most positive things associated with this placement?
What should be considered when thinking about future placements for the child?
Any additional information that you feel should be passed on to the placing local authority to help them with future planning for the child

IFA to complete:

What preventative measures have been taken to prevent the placement end?

Supervising social worker (SSW) opinion/comments

Completed by (SSW name)
