LINQS PROJECT UPDATE

AI Is Moving Fast

What That Means for the Courier Industry

- Transforming the Courier Industry
- Quality Data is key for effective AI
- AI Strategy and Opportunity

Why Embracing AI Matters

- Get Ready
- Back-office roles & Drivers
- Next 5 years not like the last 25
- Huge opportunity

What it means to our company?

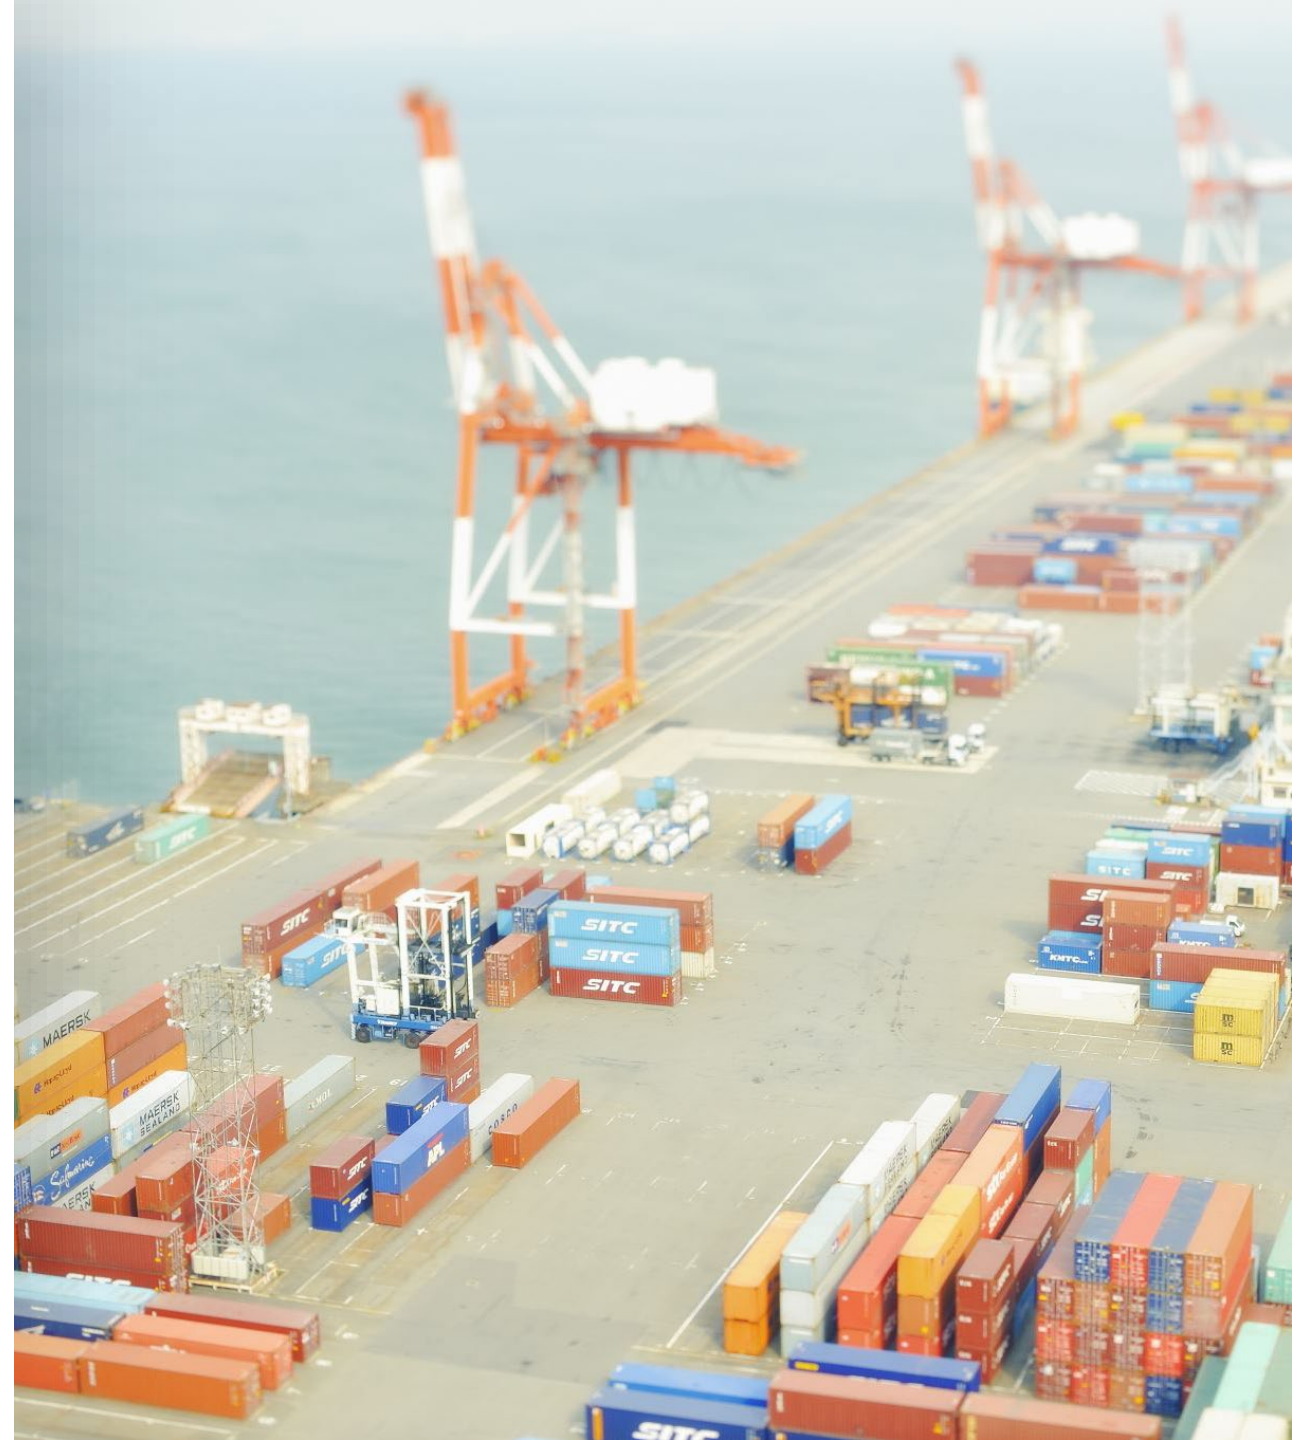

Louise Winchurch of
Winchurch Transport

WINCHURCH TRANSPORT LTD

Introduction

- I am Louise from Winchurch Transport based in Plymouth, Devon
- We have been in the NCDA for four years and I am now on the committee
- As a member we find the association invaluable, especially with our location as well as being a small business.

Relationships and working together

- The NCDA are always my first port of call!
- We intertrade regularly between other members, both ways, so getting jobs and giving jobs out, which is what I think everyone would agree on is that what we all want to do most, helping each other out especially in this current hard climate!

Member Benefits

- As we are a small business funds are limited, so we find the benefits a massive draw to being a member
- We have used quest for our HR documents and Credit safe to check our existing and potential customers

Shared knowledge

- One thing that we do think is priceless is the shared knowledge between you all.
- Countless times I have had a query or issue, asked members and everyone has helped me with no hesitation!

NCDA-The association of choice!

- I have lots of ideas of how we can make it the NCDA the association of choice
- We need to rebuild and get the community feeling again, get the passion and enthusiasm back!!

Thanks for listening!!
