

DAY 1 (THURSDAY 27 NOV)

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
9.00 – 10.00		Registration in reception area
10.00 – 10.10	Welcome and housekeeping	
10.10 – 11.10	Plenary talk – Primateology: Strengths and weaknesses of our discipline Jo Setchell, Durham University	

PUBLIC / CYHOEDDUS

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
11.10 – 11.40		Refreshment break in the café
11.40 – 1.00	Session 1 – Contributed talks on ecology & evolution Session chair: Andrew King 11.40 Caroline Bettridge: Chimpanzee predation risk influences the distribution and sleeping site selection	Workshop 1: Ethograms for captive primates: what works and what can we do better? Oriol Suite Organisers: Kate Lewis & Katie

PUBLIC / CYHOEDDUS

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	of a nocturnal primate, <i>Galago senegalensis</i> 12.00 Rhianna Drummon: First documentation and quantification of wild chimpanzee rock climbing: A comparison to tree climbing and insights to chimpanzee behavioural plasticity 12.20 Caitlin Hawley: Quantitative colour measurements suggest	Stupples Attendance is capped at 30 people. Register for this workshop here: PSGB Workshop Registration

PUBLIC / CYHOEDDUS

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	functionality of primate natal coats 12.40 Nouwair Hassani Ahmad: Fruit preference in the red-fronted brown lemur <i>Eulemur rufifrons</i> in Kirindy Dry Forest, Madagascar (online)	
1.00 - 2.20		Lunch and posters in the café AGM in the Oriel Suite from 1.30

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
2.20 – 3.50	Session 2 – Contributed talks on captive research & welfare Session chair: Will Allen 2.20 Julia Machado: Training, conducting, and validating a novel active choice judgement bias task in three species of zoo-housed apes 2.40 Emma Suvi McEwen: Virtual	

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	environment tasks with non-human primates 3.00 Luke Duncan: Social ebb and flow in captive chimpanzees – a case study of the impact of naturalistic social interventions on behaviour and social dynamics 3.20 Charlotte King: Quantifying the kinematic consequences of captivity: Movement	

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	analysis of zoo versus wild gorillas during terrestrial walking 3.40 Marianne Paisley: The nose knows: Assessing welfare in great ape introductions with thermal imaging (5 min) 3.45 Jamie Whitehouse: Facial expressivity moderates injury rate in macaques (5 min)	

PUBLIC / CYHOEDDUS

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	3.50 Questions for 5-min speed talkers	
3.55 – 4.25		Refreshment break and posters in the café
4.25 – 5.45	Session 3 – Contributed talks on social behaviour Session chair: Alex Georgiev 4.25 Andrew King: The power of position: How dominant baboons (<i>Papio</i>	Workshop 2: Designing impactful field trips for primatology and conservation students: an interactive

PUBLIC / CYHOEDDUS

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	<i>ursinus</i>) shape group behaviour through spatial network structure 4.45 Chloe Coxhall: Same-sex sexual behaviour (SSB) facilitates affiliation and rank in rhesus macaques (<i>Macaca mulatta</i>) 5.05 Marco Fele: Dominant baboons experience more	workshop to explore opportunities and challenges Oriel Suite Organiser: Amanda Webber Attendance is capped at 30 people. Register for this

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	interrupted and less rest at night 5.25 Daniella Lisboa: Re-evaluating the social complexity hypothesis for acoustic communication in primates: The relationship between social factors and vocal complexity	workshop here: PSGB Workshop Registration
5.45	Close	

PUBLIC / CYHOEDDUS

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
from 6.15	Evening Social Event	 114-116 St Marys Street Cardiff CF10 1DY

DAY 2 (FRIDAY 28 NOV)

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
9.30 – 10.30	Plenary talk – Behavioural and cognitive immunity in primates Cécile Sarabian, Swansea University	
10.30 – 11.00		Refreshment break and posters in the café
11.00 – 1.00	Session 4 – Contributed talks on human-primate interactions and	

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	conservation Session chair: Tracie McKinney 11.00 Danielle Bayles: From forests to resorts: How tourism development shapes the foraging ecology of the Zanzibar red colobus 11.20 Molly Allum: Navigating agricultural landscapes: Crop- foraging behaviour and risk mitigation in	

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	the Zanzibar red colobus (<i>Piliocolobus kirkii</i>) 11.40 Owen Storer: The effect of anthropogenic habitat disturbance on gastrointestinal nematode infections in the Zanzibar red colobus: Microscopic and molecular analyses show method-dependent parasite patterns	

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	12.00 Patrick Allsop: Anthropogenic disturbance is associated with greater dietary diversity and differentiation of the gut microbial community in the Zanzibar red colobus monkey (<i>Piliocolobus kirkii</i>) 12.20 Raoni-Mandresy Rampanjato: Conserving the watchful sleeper: density, distribution,	

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	sleeping site ecology of <i>Lepilemur cf. ahmasoni</i> in Namoroka National Park, western Madagascar (online) 12.40 Amanda Faradifa: Addressing the cruelty of macaques in social media content (online)	
1.00 – 2.00		Lunch and posters in the café

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
2.00 – 3.00	Memorial talk – Jane Goodall: The icon and the person Richard Wrangham, Harvard University	
3.00 – 3.30		Refreshment break and posters in the café
3.30 – 4.20	Session 5 – Speed talks Session chair: Ines Fürtbauer 3.30 Laura Munro: Evidence for bark	

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	feeding as a cultural behaviour in wild chimpanzees (<i>Pan troglodytes schweinfurthii</i>) 3.35 Oliver Beasley: Crop-foraging behaviour and population viability analysis in Sanje mangabey (<i>Cercocebus sanjei</i>) 3.40 Ray Heaton: How to conserve as much Primate diversity	

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	as possible: Lessons from translocation and ex situ work 3.45 Sarah Salphati: Rapid facial mimicry during social play in infant chimpanzees 3.50 Emma Guimaraes: Exploring primate locomotor diversity: The role of hindlimb muscle architecture and function	

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	3.55 Helen Mylne: Live and let die: Unravelling the variation in primate lifespans 4.00 Louisa Watson: Tracking gorillas, tracking parasites: How climate and ranging location shape infection risk in Bwindi mountain gorillas (<i>Gorilla beringei beringei</i>) 4.05 Susan Cheyne: Uniting forces to save the gibbons: A	

PUBLIC / CYHOEDDUS

TIME	IN THE REARDON SMITH LECTURE THEATRE	ELSEWHERE
	multidisciplinary alliance to critically address small ape trafficking in Asia 4.10 Questions for all speed talkers	
4.30 – 4.45	Prizes and close
