

## The Big Questions March 2023

The Big Questions is the Foyer Federation's bi-annual survey on young people living in our member Foyers/supported accommodation services. We received 175 responses from 25 Foyers, increased from 124 responses from 14 Foyers previously.

The responses come from Aberdeen Foyer, Basingstoke YMCA, Bath Foyer, Blackburn with Darwen Foyer, Braintree Foyer, Bridge Foyer, CHADD On-Route Foyer, Coops Foyer, Crewe YMCA, Crouch End YMCA, Derbyshire YMCA, Doncaster Foyer, Dove Cott, Eden Rural Foyer, LandAid House, Milton Keynes YMCA, Monarch Court YMCA, Ravenhead Foyer, Salford Foyer, Sheffield Foyer, South Lakes Foyer, Swan House, Verve Place, Wiltshire Foyer and Worthing Foyer.

### 1. We want to influence decision makers to improve the systems that affect young people. What are the three biggest challenges facing young people today?

	Spring 2023	Summer 2022	Autumn 2021
<b>Cost of living</b>	75% ↑	31%	-
<b>Mental health</b>	68% ↓	77%	83%
<b>Housing</b>	38% ↓	44.5%	29%
<b>Employment</b>	27% ↓	35.5%	41%
<b>Relationships</b>	13% ↓	14%	-
<b>Violence and abuse</b>	11.5% ↓	12%	14%

Cost of living is the biggest concern for the first time. The following three challenges remain in the same order as before. Relationships have become a bigger concern – from ninth in the list to fifth.

### 2. What do you think is positive for young people right now?

	Spring 2023	Summer 2022	Autumn 2021
<b>Education</b>	12.5% ↑	8.5%	11%
<b>Family and friends</b>	12.5% –	12.5%	10%
<b>Employment</b>	10% ↓	12.5%	7%
<b>Support</b>	10% ↑	8.5%	2%
<b>Nothing</b>	10% ↑	9.3%	13%

<b>Hobbies and activities</b>	9% ↑	-	7%
-------------------------------	------	---	----

4% of responses mentioned feeling positive about their generation sparking change and tackling the difficult problems previous generations have not solved.

*The responses to this question are submitted through a free text box. We have grouped the responses above to identify trends, and you can find each response in full in the appendix.*

### 3. What do you think is worrying for young people right now?

	Spring 2023	Summer 2022	Autumn 2021
<b>Cost of living</b>	37% ↓	44.5%	8.5%
<b>Mental health</b>	13% ↓	17.5%	17.5%
<b>Housing</b>	7% ↓	10%	8%
<b>Employment</b>	6% ↑	5.5%	6%
<b>Violent crime</b>	6% ↑	5.5%	10%
<b>Social media</b>	3% ↓	8%	4.5%

Other worries young people shared included current events (the Russian war in Ukraine, the current government and politicians, the erosion of trans rights), concerns around the advances in tech and AI, and finding it difficult to know which offers of help are genuine and which are 'box ticking' or not trustworthy.

*The responses to this question are submitted through a free text box. We have grouped the responses above to identify trends, and you can find each response in full in the appendix.*

### 4. What gives you a sense of purpose in your life?

	Spring 2023
<b>Friends and family</b>	27.5%
<b>Their children</b>	15.7%
<b>Employment</b>	6.8%
<b>Helping others</b>	6.8%
<b>Education</b>	4.9%
<b>A hobby or interest</b>	4.9%

<b>Romantic relationship</b>	4.4%
<b>Goals and aspirations</b>	3.9%

Only 3.4% of young people couldn't name anything that gives them purpose. Other responses included nature, plants, animals/pets, the after life, and helping the planet. This is the first time we've asked this question in this survey.

*The responses to this question are submitted through a free text box. We have grouped the responses above to identify trends, and you can find each response in full in the appendix.*

### 5. How would you rate your Foyer's ability to help you progress in these areas?

	1	2	3	4	5
Housing, including independen...	7.6%	7.6%	21.1%	28.7%	35.1%
Education, including informal...	7.6%	10.5%	26.9%	27.5%	27.5%
Employment, including work...	8.3%	12.4%	23.1%	27.8%	28.4%
Health, including improved...	8.8%	12.3%	18.1%	25.7%	35.1%
Social skills, including making...	7%	10.5%	19.9%	24.6%	38%
Personal development, including...	5.3%	7.1%	21.2%	30.6%	35.9%
Finance, including skills for...	7.6%	9.4%	18.8%	29.4%	34.7%

### 6. What are your hopes and ambitions for the future?

	<b>Spring 2023</b>
<b>Career-related goals</b>	24.4%

<b>Having their own home</b>	17.4%
<b>Financial stability</b>	7.4%
<b>Stability</b>	5.2%
<b>Travel or live abroad</b>	4.4%
<b>Go to university</b>	4.4%

Although the individual responses were all very unique and spoke to the different personalities of each young person, there were three key themes: independence, stability and freedom. The majority of responses included an ambition to have a chosen career or their own home, showing a desire to be independent. The word 'stability' was used several times in relation to finances, home life and the future of young people's own children. We also saw lots of responses about learning to drive, travelling, owning a business and being free of mental health worries – after covid, it seems like people are excited to explore possibilities!

*The responses to this question are submitted through a free text box. We have grouped the responses above to identify trends, and you can find each response in full in the appendix.*

## 7. How well does your Foyer listen to what you think?

92% of young people feel confident to tell staff what they think – consistent with the previous survey. However, the number that report change either being rare or taking a long time has grown from 24% to 37%. 55% see action being taken on their views quickly – down from 68% previously.

It's important to note here that the Foyers represented in this survey is much larger and more diverse than the previous survey, in which nearly 80% of responding Foyers was either an Investor member, a Youth Power Fund grant recipient, or both. This time, 56% are from that group – a significantly smaller proportion.

The data here suggests there could be benefits in more Foyers exploring their listening practices and firming up their feedback loops with young people, as well as involving young people in more decision making and leadership in their service.

### 8. How would you most like to make your voice heard or offer help in your Foyer?

	Spring 2023	Summer 2022	Autumn 2021
<b>Talking to staff</b>	64.7% ↑	58.8%	53%
<b>Resident rep meetings</b>	31.1% ↑	17.7%	28%
<b>Open door sessions by managers</b>	28.1% ↑	11.3%	15%
<b>Suggestion boxes</b>	27.5% ↑	25.8%	22%
<b>Emailing staff</b>	24.6% ↑	16.1%	19%
<b>Surveys</b>	24% ↑	18.5%	21%
<b>An online forum or app</b>	19.8% ↓	20.9%	10%
<b>Speaking to a resident rep</b>	18.6% ↑	5.6%	13%
<b>Other</b>	3%	–	

The 'other' responses are:

- Group meetings like the current our voice meetings
- Group meetings
- Could do with knowing when activities are happening
- more confidence in myself
- Residents having meetings with senior managers to voice their concerns

All options have increased, which points to a general increase in young people wanting to be involved in making change happen. Talking to staff remains the most popular way to do this,

while using an app is the only method to have gone slightly down, possibly a sign of people preferring direct, in-person contact following the covid years.

'Resident rep meetings' has increased fairly significantly, perhaps reflecting a return to this kind of engagement after the pandemic. However, the fact that speaking to individual resident reps is the least popular choice highlights the importance of building trust between young people and reflecting on the impact of giving responsibility to some young people but not all. We will add 'group meetings' to the survey next time to reflect a flatter power structure against the potential perceived power imbalance when some young people are resident reps.

## 9. How much would you like to be involved in leadership in your Foyer?

	Spring 2023	Summer 2022	Autumn 2021
I would like to contribute my ideas through a survey or conversations from time to time	33.7% ↓	41.2%	21.1%
I would like to be part of a small group of young people committed to leading change	29.1% ↑	13.5%	14.6%
I would like to be invited to decision making meetings with staff	26.3% ↑	15.1%	15.4%
I would like to contribute my ideas in group sessions without committing long-term	26.3% ↑	18.2%	9.7%
I don't want to share my ideas	18.3% ↓	23.8%	26%
I would like to be given specific responsibilities/roles in the Foyer, eg interviewing new staff	17.7% ↑	11.9%	13%
Other	4%	–	–

It's very positive to see that 81.7% of young people who responded are interested in shaping their service in some way. This shows there's huge potential for increasing youth leadership across the network.

It's also encouraging to see a trend towards leadership and decision-making opportunities that require deeper engagement, like being part of a small group of young leaders and being involved in staff meetings. Responding to surveys or having one-off conversations has decreased in favour, though it is overall still the most popular option. This highlights the value in having a range of ways for young people to get involved, ideally covering the spectrum of the ladder of participation and factoring in different levels of time available, areas of interest and level of confidence.

## Diversity and inclusion

### Age

There is a good range of ages represented in the group. Around 11% are under 18, around a third between 18-19, and another third aged 20-22.

There's been an increase in the number of Foyer residents responding aged over 25 – perhaps reflecting a lack of move-on

options for young people beyond the typical Foyer age bracket, and a need for the kind of support a Foyer offers beyond the somewhat arbitrary cutoff age of 25.

### Ethnicity

81% of young people described themselves as white. The next largest groups represented are Black and mixed ethnicity (both 7.2%).

### Nationality

89.9% of young people who responded are British nationals. Two Spanish young people responded, and one young person of each of the following nationalities: Afghan, Brazilian, Congolese, Dominican, Eritrean, Irish, Jamaican, Kurdish, Nicaraguan, Pakistani, Polish, Somalian, Thai and Yemeni.

### Sexuality

70.5% of young people described themselves as heterosexual and 27.9% are LGBTQ+ with identities including bisexual, pansexual, homosexual and queer. This is higher than the national average of 10.6%. Just over 1% are undecided.

### Gender

51.2% of respondents are female, 46.9% male and 1.8% non-binary, with four young people describing themselves as being transgender. This is in line with the national average, though we did not explicitly ask young people whether or not they are trans- or cisgender. Only four chose to share this information.

### Religion or belief

63.8% of respondents have no religious belief, and 3.8% are agnostic. 14.1% are Christian, 5.8% are Muslim, 4.5% are spiritual. Buddhists, Catholics and Satanists make up 1.2% each, and Jedis, Humanists, Marxists and Wiccans make up around 0.6% each.

**Disability**

33.5% of respondents reported that they consider themselves to have a disability. 35.9% have a mental health disability, 17.6% have a learning disability and 11.8% have a physical disability. 18.8% have more than one disability.

## Appendix

### Question 2: full text responses

a lot of traineeships and apprenticeships	Being active, having good friends and family	more awareness about mental health	More training and education
Access to the nhs	Exercise	going out	apprenticeships and jobs
Socialising	I have a new job	Social time	To study
Freedom of information, acceptance of sexuality and understanding	There are so many opportunities for young people to take nowadays	The opportunities with everything as the world is developing	A bigger sense of community due to social media
job opportunities	Advanced technology	Friends, family	boyfriend
Having their friends or family	The help we are getting from Swan	Potential to have a good future	Summer and social integrations
I can't think anything about young people but I can say that something positive to me has been the support I've been having since I escaped my previous home	A lot more knowledge and support for mental health is being shared on popular social media platforms to inform people who either have or don't have mental health on what it's like with different mental health conditions or how to cope and deal with them in better ways and how to help someone who is dealing with mental health		Parents, carers and families having the primary responsibility and influence to nurture young people through to adulthood
The weather	Nearly summer	Opportunities for work	education
Friends and family	social relationships	family	Education and prospects
My generation are speaking out on topics that other people are too scared to speak about.	Having supportive friends and the ability to communicate their emotions	young people can change the world as we are being listened to more	Able to do what we wanna do with are live then treat us like children's
Andrew Tate being a top g	behaviour through support	Having their friends and family around	internet access to the world
young people are getting more education and working opportunities	free social groups and activities and mental health support	They are still free and can still make memories for themselves	Young people can gather together and fight for what they really want
Not much	Education	To start work	Education
Relationship	The people around us	Uni	Nothing
job opportunities	Education	Freedom	Support from services
We have time on our side	Family and friends, staying active	more opportunities with work and housing	Having something to work towards
Opportunity	Nothing	People who help others	Taking stands together
Friends and support network	Available networks and support	Helping out the young people found their place	Having close friends in the building

Art	Education	Activities	Opportunities
Positive reinforcement, encouragement and support to help them succeed in education, career pathways and life goals	Parents, carers and families having the primary responsibility and influence to nurture young people through to adulthood	I think a positive thing for young people is the small communities coming together against racism/homophobic behaviour	Educational access, support for housing and mental health awareness
more access to things that can possibly help mental health, different types of programmes that are able to give young people access to education or more information on what they need to help them	Unfortunately nothing is really positive as the cost of living is high and the moment and there is not much support when it comes to housing unfortunately.	The positive thing for young people at the moment is to stop all the violence crime. Accommodation to be able to help the young people who are homeless due to change of circumstances and get them into a secure home. Education, Work/training. Having enough resources that can help stimulate/Entertain the young people ect; The youth centre.	
Nothing, young people have a lack of motivation and as such are getting lazy	one thing is good young people getting long life insurance to stay until they become stables	There are lots of communities and groups to help support young people	opportunities for jobs, more support benefits wise, get to have a voice in the groups etc
Help from people to achieve goals	having supported housing	Football and the grassroots system	Support - no covid, friends, events
Equality	nothing	Friends and family	Their future
Fitness, inspiration and diversity	The way the rights movement is going	Being in a safe community	having the right people around
Family	friends	Nothing	Job opportunities
Having a support network and aftercare	Learning to be independent	Sports activities - should all be free	Employment and education
Nothing	If a mother, their children	i feel happy sometimes	education
Socialising and having people around to talk to. Also having the freedom to do what you enjoy	We're all healing traumas from generations before breaking generational trauma	The fact if you're on benefits they give you extra payments throughout the year	Employment for young people, access to education, physical health
social media	education	Having people they trust	future
Booming computing industry for the intelligent few to do well	The help from the council to keep young people from being homeless	Opportunities available to YP e.g., volunteering in the YMCA cafe	Ease of access to communication devices and tools
Gym	Education	disciplined sports	being listening
Nothing except free education	We get cheaper bus tickets	freedom of speech, opportunity	Being around people and out of the house
Good support network	Not much	Free access to education	Have free choice

A lot more things to do	Equality and diversity	jobs	Socialisation
Employment	Get my own house	positive mindset	My son
School and education	Music	friends	Nothing
We should all celebrate our individuality and not be embarrassed or ashamed of it	There is more support for young people to get where they need to be in life	There has been an increase in the services available to young people	There is always something to forward too eg. Seeing family
employment, apprenticeships	Help with cost of living is being looked into	thoughts of a brighter future	They have somewhere to get off the streets
socialising	Nothing	Employment	support, friendship
Socialisation	Activities	Positive socialisation	My son
Plenty of job opportunities	Family, friends, keeping active	Interacting with other young people since covid	being able to have own opinions
employment possibilities	college course	Help from church	n/a

### Question 3: full text responses

Adulthood - paying bills and stuff like that	Don't be able to live are life	lack of money and mental health	What they want to do in life
future employment	Work and cost of living	Nuclear war	Mental health + money
Money	Cost of living	High rent costs	Money and housing
I definitely think cost of living is causing a lot of young people a lot of worry and stress because it doesn't just affect the money side of things it can affect relationships of all kinds and add a lot more stress onto their life when the problem is all about money and how much everything has went up in price		We have no money, organisations such as ymca have no care for our life and wellbeing and only care about money. If we work we have to pay extortionate rent which is meant to be for homeless people if we don't work we cannot move out both ways there is not enough money to save	
high rent. cost of living, mental health	the news the war and future prospects	Getting a job, cost of living and mental health	Wars and declining health of planet
Money situations	Cost of living	Mental health	The increase of money
Doing nothing	Mental health	Cost of living	Future
knife crime, drugs and money	not being able to get on property ladder	Finding work and a place to live	mental health and worry about money
mental health	Future	Cost of living, money	Cost of living
Cost of living, loneliness, mental health, struggle finding themselves	Economical and environment complications	being misled by things we see on social media and by the media	The affordability of everything rising yet people's money doesn't

cost of living crisis	Life, bills, tomorrow	High rent	money
Money	cost of living crisis	Housing and jobs	war
Mental health, privatisation of health care, and current political decisions and policies	Cost of living: It is very expensive for young people to move on from placements and to take the next step to live independently. It is important that we give young people the tools they need to succeed		cost of living, can't afford to life well and can't afford to move on to our own properties
Ignorant politicians	Without peace	Money	Poverty
Whatever the mass media pumps out to fear monger	ignorant politicians refusing to acknowledge the needs of the public	I think the main worry right now, would be the cost of living crisis	lack of mental health an young person support, housing etc
Smokin	The streets are terrifying	Knife crime	Money / cost of living
Nothing. Majority of young people have nothing to worry about as everything is handed to us on a silver platter	The future. Cost of things rising. Social media. Climate change and the world being treated badly	Mental health, relationship and how to manage them, having and maintaining a job, what job to have as a career, trauma from past experiences and how to handle them what help to seek (to some of us), self-image	
Some common teenage issues are schoolwork, bullying and body image	If we will have a roof over our head in the future and if there will be a change	Mental health, depression addiction to substance and motivation	currently the cost of living could be a potential worry for some young people
cost of living and not being able to survive	Having a place to live and cost of living	The lack of knowledge to accessibility	Housing , employment and mental health
A.I.	Cost of living crisis	Cost of living	Housing
Money and moving out	Cost of living	Cost of living	Drugs and alcohol
Everything is becoming more expensive, people are becoming more divided. It's hard to see who really wants to help or they're just trying to tick boxes	The younger generation is worrying as there is a lot more exploitation and gang crime. There is also a lot of pressure in regards to social media	We're all traumatised and no one listens and there's a whole system set up to pretend to care and help you but no one does in reality	Artificial intelligence uprising and the fact that it could genuinely destroy jobs in the creative field, especially conceptual art and design.
Cost of living and rent	Violent crimes	Cost of living	knife crime and violence
employment, cost of living	cost of living, homelessness	The shambles of the state of the government	people not caring the issues we face
biodiversity crisis	Cost of living	Cost of living crisis	Anxiety and depression
Cost of living crisis	future	Money	Knife crime
Bad young people around them	Not a lot of employment opportunities	Money, employment and education	Being alone with no support
mental health, this is a	lack of money and cost	How they're going to	Technology - making

priority. Especially within the YMCA.	of everything going up daily	survive the next few years	people lazy and compliant
The YMCA	Prices rising	Cost of living	Knife crime
Cost of living	Walking on streets alone	costs	Gang violence
mental health and lack of money	violence, kids being bored	The government is a worry	cost of living and being able to live
Smoking	Mental health	Drugs	Money, mental health
Mental health as in like feeling like you're alone or not having anyone there. Scared to tell someone they're struggling		The worrying thing at the moment is the violence/crime with Knives and guns. The way most of the young people act in the community/country	
Cost of living	Cost of living	Cost of living increasing	Money and lack of it
No idea	Money stresses	Laziness	Cost of living
mental health due to social media	lack of mental health support and money	Cost of living and unemployment	Climate change and job stability
Money situation because everything is becoming expensive	the social and economic situation of the world at the moment	The climate, mental health basically everything	Social media and how it affects mental health with most young people
Share house	Cost of living and help	Prices rising	Mental health
Mental health	The amount of crimes	Money	rent
The bad thing is any young people is married and their wife is back home and the person is living in single hostel can't get apply for wife to bring here because of house . It's going to be worrying for a young people		Having to pay rent in a hostel such as YMCA, especially with rent being so excessively high (higher than some private renting) - And for the rent team to keep quiet and not help out when young people are in arrears	
Mental health	The cost of living	money	Everything
Extra stress on life	Housing	Cost of living	Mental health services
employment	climate	Money (cost of living)	Money struggles
Expenses (cost of living)	Cost of living	The trans bill	social media and how they need to be and act
cost of living is preventing people move on positively	Money, mental health access	Negative influences from other young people	Cost of living and housing

#### Question 4: full text responses

working and relationships	I don't know, making others happy?	becoming a dad and my relationship	Looking out for my nephew
---------------------------	------------------------------------	------------------------------------	---------------------------

My son	Exercise	My son	My family
Friends and family	friends	My child	Support
My daughter	Friends	Relationship and uni	Friends and family
My son	My daughter	Family	My pets
My mum	My child	My work and friends	Helping others
Knowing that at a certain point I will be comfortable with where I am in life and who I am as a person	I'm currently 31 weeks pregnant and I didn't have any purpose before falling pregnant so now I'm responsible for another human it has given me a lot of purpose to look after myself to be able to look after my baby		The fact that there is so much more out there, there's so much I haven't seen or experienced, the world is so big
music and my career	My family	Seeing my brother	My nieces and nephews
Family and friends	Bricklaying	School work	Peace and health
gaming and going to university	My animals, the people around me	Having qualifications and being successful	family and friends and applying for the army
Money > more	The energy	Family in a way	Going to uni
looking after other people and animals	My child gives great purpose in life	Mainly knowing that I have a shift at work	being with my dog and friends
Education and home	Enjoy life	Family and friends	My family and cat
progression makes me happy	I can't answer that. I'm still figuring it out	hopes and dreams for the future in my career	Making a difference in my life
Social networks	My mum	Helping people	Family
The people around me and the better relationship with my family	i give myself purpose by having dreams and goals i want to achieve for myself	Be able to do more things with our children's and involved them a bit more in activities	Hope that things will get better and that I'll be able to broaden one's horizons
Partner, family	Helping others	Purpose (personal)	Family
Art	Performing – dance	Family	My daughter
knowing i'm able to help other young people with my experiences in life	To have a roof over my head and be able to afford it like most	The fact that I'm doing a lot better in terms of education than anyone I know, or anyone in my family. My intelligence and charisma gives me worth	
Goals	My daughter	Education and works	Gym, sewing
Being a positive and supportive person for your loved ones	Higher education because you can access to a better job post	Some of my friends, my need to feel useful (actually, my need to not feel useless), some of my passions I guess and curiosity in general	
My daughter	My kids	friends	work
the people that support me to do better	cooking, helping the planet friendships	Helping others and animals	Making a stable life for my children

Evolution aims achievements. I am motivated to accomplish things that my parents couldn't do	My baby, having a routine, having people around me I know I can have support from	Being able to know that I can help as I can where I'm staying at the moment with my accommodation move on gives me a sense of purpose in my life knowing that it won't be too long to go for me and I will be moved from hostel to a new place that I can finally call my home.	
Animals	My son	Nothing really	Having a social life
My daughter	Family	Partner	Cousins
Family, friendships	My child	Family	My friend
My child	My sisters and nephew	n/a	Life
my friends and partner	My daughter	My baby	My daughter
Having people to take care of	Things I'm passionate about	Doing my pageants and being part of Endeavour	Future's looking up – positive
My daughter	boyfriend and work	Dream	My friends and family
My relationship gives me a purpose, it means I am loved	getting a flat and getting help with my mental health	Knowing that I won't be where I am forever and change is imminent	being pregnant and looking forward to my baby
Job	Being a parent	Helping people	Work
My friends	My partner	Belief in myself	Family
My work	The after life	I aspire to be someone	Finish my education
My friends and community	Doing things towards my future	Friends and work making people happy	looking forward to my own place
My son	My child	Friends and family	My education
My son	My family	Family and friends	Nothing
My family especially my parents if it wasn't for them I think life would be pretty dull		having a balanced life, home, finances and friends	my volunteering with people in need
My education and my plants	My family and work I put into things	living my dream, motivation	I enjoy being outdoors with nature
Helping others	My daughter	Employment	Earning a living
YMCA	people	Family	My family and friends
My weekly active cumbria	Family and friends	My son	Friends
Money, family	Feeling needed	My girlfriend	My son always

### Question 6: full text responses

to finish training and be fully qualified electrician	To have a place to call home permanently	Buy a house, write a book	to move into my own place as a family
A happy family	be successful in work	to have my own home	Be successful
to work and have my own family	Getting a job and having a stable home	get my own place and start work	Criminology and psychology
To be happy to wake up every morning, feeling full of passionate and comfortable	I want to learn a variety of languages, maybe have a small business in the future, travel more, make more connections professionally and personally, have more confidence		To obtain a purpose in life and to have somewhere secure to live
independence	To manage living	To own a business	to have my own flat
To have enough money to never worry about money	To have a stable life and not have to worry about anything	I want to complete college, go to uni and become a firefighter	Having my own place to live and having qualifications
Work full time and eventually buy my home for me and my daughter so we have a Forever home	to be happy and successful and travel to as many places i can and experience new things	I hope that one day I'll finally be on the right medication to be mentally and physically get better so that I can get rid of all the extra services and support I don't want but need currently so I can live a free happy life	
University and then hopefully a good job	To have a place of my own	I wish to move on and start life	to become a professional musician
Work full time and eventually buy my home for me and my daughter so we have a forever home	My hope is to have a good health and my ambition is that I want to complete my education and to find a better job	Become successful, home with my baby, driving, holidays, stable job as an engineer, stable income	To have good education earning good income and having a forever home for me and my child
to get a care job	live independently	Pro bricklayer	I would like to be nurse
To live and be true to myself	Go to uni get my degree then work in media	to become a piercer, to do nice things for people	join the army and be a soldier
I would like to achieve a career in nursing or working within an area of the NHS	To get myself a flat and have a good job. Preferably working with animals	To have my own place and going into tattoo designs or character design in university	I want to live and travel abroad, live on my own, work, have fun, work with kids
self-employed builder, buy my flat in due time	to create something positive	find a job positive move on from the foyer	To have my own house, family and a stable job
Have a good job	Self employed	Get training	Travel
To get my forever home , to be driving, getting back into education	My main long term future goal is to one day own, my own restaurant	I hope to be able to finish my degree and have a home and learn to drive	Just to get on with life without people's hold us back
to have good health	Independence + work	Financially independent	Get a job and move out
to be secure in general to have a home and be financially secure	Help pave the way for the young people of tomorrow	I want to go to university and have my own fashion brand	I would like my artwork to have recognition. Maybe a tattoo career.
