

# Big Questions Survey

## Bitesize Engagement Toolkit

Idea	Description
<b>Foyer Points</b> 🎯	Do you have a points or rewards system in your Foyer? How about offering an incentive to your young people by saying, every time they share their thoughts, they earn Foyer Points! It's like levelling up in a game, but with real-life perks.
<b>Mini Game</b> 🎲	Who says surveys have to be dull? How about you engage your young people in filling out the survey by creating a game or getting a group of young people to fill it out together during a games evening, giving space to have fun as they go?
<b>Personalised Rewards</b> 🎁	How about reminding your young people that they get the chance to win a £50 voucher when they answer? Or how about offering another reward for answering?
<b>Group Connection</b> 😊	Young people said that they would answer the survey if it was used as an opportunity to talk about the “big questions in life”. How about hosting a launch night, offering food such as pizza, so young people can chat with friends while giving their feedback?
<b>Integrated Sessions</b> 🤝	Have you thought about weaving the survey into your keywork sessions or resident meetings? Making it seamless and easy for young people to share their thoughts?
