

Society News and Notes

Conference and AGM 1976

There was agreement that this was among the best yet promoted and this Bulletin has a report of the proceedings and discussion.

Membership 1976-77

Approaches have been made to all members to carry forward their support into 1976-77: if you have not already done so, will you please respond quickly. And if you can give any help in extending the membership by personal proselytizing, we shall be very grateful.

Bulletins

The present Bulletin deals particularly with "Consumers' Co-operation in the Federal German Republic - The Latest Phase": and helpfully for all interested in drawing parallels and distinctions with the British situation - with a special interest for those pre-occupied with the issues at present of "A Single National Federation" and the relation of central Co-operative organisations to the retail societies.

No. 28, which we hope to publish in late September or October, will deal with the role of the Co-operative Press in this and other countries - with particular reference to Consumer Movements.

Bulletin 29 should appear in the early part of 1977 and deal with relations between trade unions and Co-operative Movements in different countries.
