

UKTMN ASPIRE - Application Form - Cohort 2

UKTMN ASPIRE - Leadership programme

The UKTMN ASPIRE programme is a tailor-made leadership programme, made by trial managers, for trial managers. The programme has been developed to provide trial management professionals with the specific aspects of leadership which are relevant to the profession.

ASPIRE is for experienced trial management professionals who want to develop their leadership skills. There is no requirement for having worked in a trial management role for a specific number of years of experience required but the programme is most suitable for those with substantial trial management experience.

We recommend that prior to applying you have gained line management and financial approval. The application form will ask for your details, information about your trial management experience, why you want a place on the programme and what you hope to get out of it. You will be able to save your responses and complete later if you need to.

The application process is open and competitive. Places will be allocated on review of applications. Members of the UKTMN Executive Group will review applications. If a place is offered to you, you will be asked to confirm acceptance.

Full details of the programme, which should be read prior to completing the application form, are available here: <https://www.tmn.ac.uk/resources/aspire-the-uktmn-leadership-programme>

The application window will close at 11pm on 9 May 2025. No applications will be received after this time.
