

Lapsed Membership Policy

After 18 months of a membership being terminated, anyone wishing to reapply for membership must do so using the current application process (i.e. supply updated information and comply with any eligibility criteria).

For Accredited Practitioner members this means professional qualification(s) and registration.

For those who do not meet this criteria we have Associate membership.

All reapplications must demonstrate:

- That they understand and agree with our Capability and Conduct Framework for Practitioners.

Accredited Practitioner reapplications must also demonstrate:

- That they have the appropriate qualifications or registration (inc. Route 1 & 2 accredited mentors)
- That they have a supervision agreement in place.

Unless they have gained additional qualifications, a Route 1 & 2 accredited mentor would have to demonstrate that:

- They had been working in a similar role during the time when they were not a member e.g. advice work, other mentoring, IAPT/wellbeing service work. This could be in the form of a reference, contract and/or job description.
- And/or they understand facets of the capability framework by a short piece of written work.
- They had been undertaking some form of appropriate CPD. This is to ensure that they had been keeping relevant skills up to date.

Last updated: July 2025

All data is deleted after three years of termination of membership which means we cannot accept reapplication from mentors accredited by Routes 1 & 2.

Unfortunately, we are unable to accept reapplications from Route 1 & 2 mentors who are unable to meet the requirements detailed above. There is no longer an accreditation route available.

Please contact admin@umhan.com to discuss your individual circumstances.
